Mayor Max Andrews called the special meeting to order.

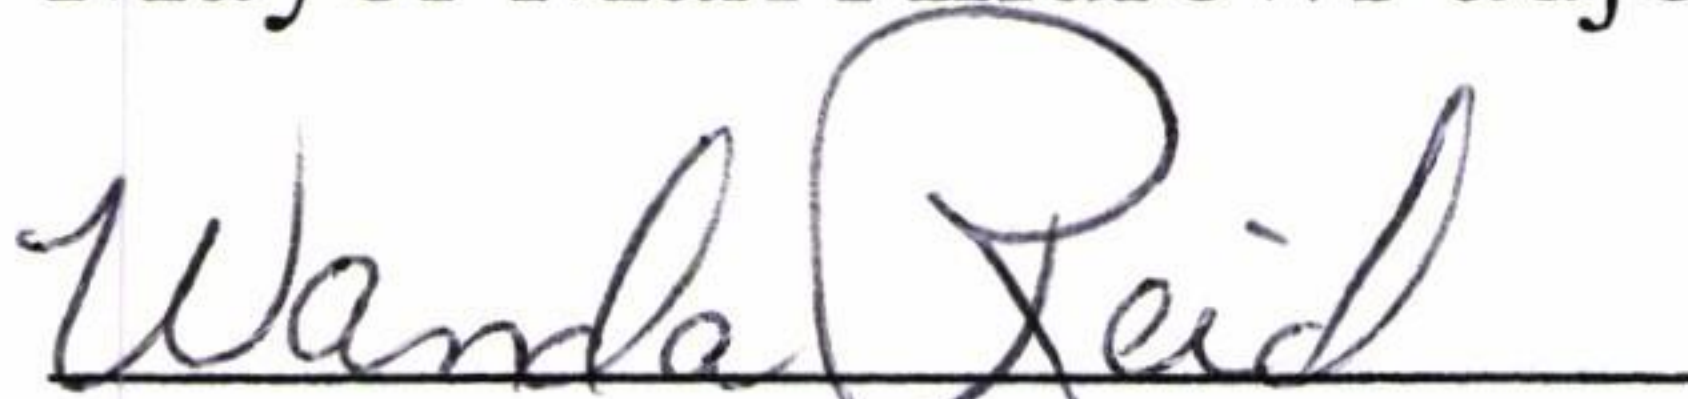

At the last planning board meeting the planning board questioned the goals of the Mobile Home Park Ordinance, and why the plats were required.

Town Administrator Eric Davis and David Stamey explained that the plats are required so that the Town will know all aspects of the regular plat requirements.

Planning Board member, James Duffey stated that he does not feel that the cost of the plats is justified. Council informed the Planning Board that the MHP owners did not need to pay a surveyor. The owners can draw the lines themselves.

Country Meadows owner, Mike Mask, discussed the fact that he had all of the phases of his parks approved by the Town, and now there are new standards. Mr. Mask does not feel that he should have to do plats for either park.

Mayor Max Andrews adjourned the meeting at 5:40 PM.
